

The Control4® LCD Keypad offers complete system control in an elegant, compact design that's surprisingly affordable. The LCD Keypad is equipped with eight buttons, an intuitive select dial and a unique programmable shortcut button. Its backlit interactive LCD screen provides status information and feedback for users as they effortlessly control their Control4 home automation system.

It's all part of the Control4 vision. We bring the benefits of a truly automated home to more people with solutions that are affordable, easy to install and designed to adapt to any home or lifestyle.

Features and Benefits

Beautiful On Any Wall

- **Clean and compact design** — Low profile makes it fit into any home décor.
- **Color choices** — Available in white, black, or almond to integrate seamlessly into any home.
- **Elegant functionality** — Amazing functionality packed into a sleek, slim design.

Intuitive For Every User

- **Interactive LCD screen** — Provides users with status information as well as control of any connected device.
- **Wireless Version** — No special cables to pull through the home.
- **Power Over Ethernet Version** — Uses a single CAT-5 cable to provide communications and power to the device, greatly simplifying installation.
- **Easy operation** — With simple, intuitive navigation, it's a snap to operate the keypad.

Intelligent From Front to Back

- **Multi-button configuration** — Control anything and everything in the house with eight control buttons, a shortcut button and a select dial.
- **Intuitive dial control** — Use the select dial to easily navigate through menus on the keypad.
- **Shortcut button** — Program this larger button for simple control of common automated features, such as a goodnight function, which can lock the doors, shut off lights and adjust the home temperature when pushed before bed.
- **Wireless Version** — Intelligent, reliable, wireless connectivity using the ZigBee™ (802.15.4) mesh networking standard.

Affordable For Every Customer

- **Surprisingly inexpensive** — An interactive LCD keypad has never been so affordable.
- **Scalable, low-cost solution** — Begin and further expand home automation with lower entry costs.

Scroll through your music collection and select a favorite play list using the intuitive select dial. **Dim** the lights in the living room and bring up the lights on the patio with the push of a button. **Program** a "panic button" to secure a home in seconds.
